CAREER OBJECTIVE

I have always tried to understand the nature of the concepts that I have learnt. I am doing specialization in Corporate Law. I have participated in various article/research writing competition and in certain extra curriculum activities too. These have given me plenty of opportunities to work towards my goals. Before applying for this internship, I have worked as a legal intern at 10 different law firms and lawyers which has immensely given me plenty of opportunities to work on matters related to Arbitration Laws, Data Protection Bill, Artificial Intelligence and Law, Criminal law, Contract law, Civil law, Corporate Law, Aviation Law, Family law, Real Estate Law and Intellectual Property Rights. But while working on these laws and legal matters, I have begun to get huge interest in Real Estate Law, Contract Law and Taxation Law.
