University of Mumbai

PROFILE SUMMARY

I am a highly curious individual and focused on constant upskilling and the same is somewhere demonstrated through my previous work experiences. I am desirous of understanding the intricacies of law in concept, its symbiosis in the prism of political changes, advancing technology, changing society and wish to articulate the same in practice. Having a proclivity for law and artificial intelligence, my academic years have shaped me into a passionate researcher, eager to use the background legal knowledge towards integration of AI and law. Having completed my B.L.S.LL.B from Mumbai University, I am keen to further implement, upskill and explore the strengths and knowledge to shape myself into a distinguished lawyer.
