➤ EXPERIENCE

PATENT ASSOCIATE

Chadha and Chadha Intellectual Property Law Firm
01/2021 - Present

- Patent prosecution specialist with experience in analysing office actions (FER) Issued by the Indian Patent Office using various tools and databases including patentscope, USPTO, EPO, global dossier and preparing responses to office actions which has resulted in several granted patents.
- Successfully prosecuted over 350 patent applications in various technical fields, including biotechnology, pharmaceuticals, chemicals, electronics, computer technology and mechanical engineering.
- Handling complex client queries related to the prosecution of Indian patent applications and providing strategic guidance. Advised clients on patentability criteria, prosecution procedures under the Indian Patents Act and its implications for their businesses.
- Analyzing foreign prosecution history of patent applications, including identifying relevant prior art and assessing potential patentability issues.
- Proven track record of managing deadlines for responses to office actions, proactively reminding clients of any impending deadlines and ensuring timely delivery of responses.
- Analyzing the legal and procedural requirements for filing petitions.
- Manages client information in a database, updated case status information, and ensured the accuracy and completeness of client data.

PATENT ENGINEER

Indian Institute Of Patent and Trademarks
07/2020-12/2020

- Patent Engineer with experience in scrutinizing granted and published patent applications to gain in-depth knowledge of patent drafting, prosecution and analyze checklists for filing patents in India, US, Europe, and WIPO.
- Analyzed over 150 granted and published patent applications in various technologies, including software, electronics, and mechanical devices, to identify key elements of patent prosecution and gain insights into patentability requirements.
