• Advocate Sattyajeet Karale Patil · Bombay High Court · Online Legal Intern · August 2022

- Experience and Role: Internship under Mr. Sattyajeet S. Karale Patil proved to be substantive in terms of the understanding functionalities of the legal world. Sir mainly deals with criminal matters and special civil matters. Even though it was an online relationship, I got to learn a lot. All the interns here work on real cases first-hand, which is rare.

- Primarily, I learned how to draft legal documents which reflected the thought process from taking up a case to gathering facts and further forming arguments, which I consider is very crucial for a law student, of course, one learns about the systematic procedures and laws along the way. Unlike other internships, our meetings started late in the evenings and went on till midnight. Managing college with late-night work sessions was quite a progressive challenge for me. I also got the opportunity to take interviews of new candidates who were applying for internships, which taught me more about composure and resilience.

- I learned about client handling too. Lastly, I got to witness cases laying upon the grey areas, familiarizing me with the realities of the legal profession. I am now much more aware of the real consequences of actions taken by a legal professional and the reality of our society in general. I would like to mention that I learned to question people and think things through while practicing caution.
