Delhi, India | M: 9818740715 | kswati.23.5@gmail.com

## OBJECTIVE

---

Solution oriented Intellectual Property professional. I am seeking a challenging opportunity to do and manage projects where I can use my advanced skills, education, extensive training, and years of experience.

## EXPERIENCE

---

### Registered Patent Agent Examination since 2018 (IN/PA- 4100).

#### UnitedLex Corporation – Gurugram, India

##### *Senior Associate – Intellectual Property*

**Feb 2020 – Present**

- Providing technical arguments and responses to Examination reports.
- Drafting non-provisional/complete specification application in compliance with Indian Patent rules and section.
- Have experience in the patent analytics projects like Landscape/Whitespace analysis. Also, delivered customized Whitespace studies and expert advice to the client by doing coordinated complex research and analysis with a focus on IP.
- Identifying opportunities and challenges present in a particular technology area in order to provide cost effective suggestions to clients.
- Working on Patent Lapse Analysis and Market Relevance Study projects to identify the important patent-product pairs.
- Working on Post-Allowance Analysis and preparing detailed report on the same.
- Performing target scouting to provide valuable insights for intellectual property assets for multiple clients.
- Developing training materials and technical documents for team members.
- Got proficient in MS-Office (especially in Excel, Outlook, Word, and PowerPoint) in due course of the work.
- Gaining consulting experience during the course of work and regular interaction with clients.

##### *Associate – Intellectual Property*

**Jan 2017 – Jan 2020**

- Performed Infringement analysis for close to 20+ patents, some ended up with an Evidence-of-Use (EOU) chart. Have been done patent mining and mapping work for a SemiC company.
- Performed around 60+ patentability searches to determine whether the proposed invention is patentable or not. Also have performed number of Invalidity/Validity searches. Familiar with databases like Google Patents, Derwent Innovation, Innography, and Orbit Intelligence.
- Conducted freedom to operate searches for the novel products to be launched by the client.
- Been part of the circuit extraction team that worked on circuit extraction project for using tools like Pix2Net. I also got hands-on experience on OrCAD.

#### ANOVIP - New Delhi, India

##### *Patent Research Associate*

**May 2016- Jan 2017**

- Performed patentability searches, invalidity reports, Freedom-to-operate reports.
- Drafted 15+ non-provisional patent applications in compliance with Indian Patent rules and sections.
- Assisted in identifying and drafting the technical differences for 10+ first examination report responses.

#### WAPCOS LIMITED- Kolkata, India

##### *Junior Level Engineer*

**Sep 2013- Sep 2014**

- Worked as a consultant in Quality Auditing under Rajiv Gandhi Gramin Vidyutikaran Project.

- Responsibility Involved:
  - Inspection of Rural Electrification works i.e. H.T & L.T Distribution Network.
  - Installation & Erection of 33/11KV Substation, H.T & L.T Poles, 11/0.4 K Outdoor Transformer,
