Achievements & Awards

- At the age of 22, my first book was published and my paper was in the news and I was honored along with it (9 May 2022). Ajitab Bose also posted my story on Instagram. (Famous author) I was also felicitated with a momento by a politician (2 Sep 2022) I also gifted my book to the District Collector or he was also surprised that a civil engineering student could publish his book at such a young age. It was a very proud thing for me. And I was also given an award for Literature by a Marathi Empire publisher (Oct 2022). I also gifted the book to our District SP in November 2022 and he also praised me in front of everyone

Publications

- Unstoppable miracles**
Unstoppable miracles
This was the first book in my life that I published which I considered to be a unique experience and this book was published in Marathi language by Evincepub publishing. And along with that I also published some experiences in English language from writat publishing house. Also to develop this book I also distributed it to local book stores and libraries.
