### WORK EXPERIENCE

#### United Lex: Gurgaon (November 2023 - Present)

In my present role, my responsibilities comprise -

- Managing patent prosecution across diverse jurisdictions, including the US, India, Europe, Japan, Canada, Australia, Singapore, China, and the Philippines, preparing precise and strategic office action responses.
- Collaborating with inventors worldwide in evaluating invention disclosures, spanning advanced technologies such as AI, ML, telecommunications, and cloud computing.
- Analyzing patent claims, and providing actionable guidance to inventors and legal teams, and developing strategies to overcome objections and ensure patentability.

#### Chadha and Chadha IP: Gurgaon (October 2021 - November 2023)

In this role, my responsibilities comprised the following-

- Spearheaded the preparation and filing of responses to First Examination Reports (FER) and patent hearing responses, ensuring timely and effective communication with the Indian patent office.
- Conducted prior art searches and limited drafting of ed complete specification.
- Contributed to the firm's knowledge management system by developing resources and insights to enhance team expertise.

#### Tech Data, Florida, United States (July 2021 - September 2021)

The internship involved data privacy research across APAC countries and exploring the nuances of the prevalent data protection laws in the countries with respect to Tech Data's activities.

#### Tech Legis Advocates and Solicitors: Delhi (May 2020 - June 2020)

The internship involved extensive research on cybersecurity and data protection laws of different countries and writing regulatory and litigation updates.

#### Fraud Management and Legal at The Cyber Blog India (September 2018 - June 2022) - Part Time

In my deliverables, I have written technical articles, conducted research on grey areas in cyber laws in India, and prepared numerous case summaries related to the IT Act. Additionally, I have actively worked on a wide range of fraud cases, managed the WhatsApp helpline, and handled various cybercrime, financial fraud, and obscene content removal cases from inappropriate websites.

#### Commission of Science and Technology, Ministry of Human Resource Development: Delhi (June 2019 - July 2019)

The internship involved the building of a software for the reception module with proper security analysis to be used within MHRD. The software was built in Visual Studio 2019 using C# as the back-end language and HTML as the front-end language.

#### B&B Associates: Panchkula (January 2019 - February 2019)

The internship involved the drafting of complaints and arguments involving constitutional and consumer matters before the Hon'ble High Court of Punjab and Haryana. The internship comprised drafting written replies for matrimonial matters and grant of maintenance.

#### Advocate Amar Vivek (Additional Advocate General of Haryana): Chandigarh (July 2018 - August 2018)

The internship involved preparation of case briefs and witnessing the proceedings of the High Court and district courts. Besides, it comprised research about pension regulation schemes in Indian Army and matters pertaining to misuse of authority by unaffiliated educational institutions.

#### Nitesh Sahni and Associates: Ambala Cantt (May 2018 - June 2018)

The internship involved research on matters related to Consumer Protection Act, and criminal cases. Besides, it comprised attending legal aid camps with the District Legal Services Authority, Ambala panel and witnessing the court proceedings on a daily basis.
