## INTERNSHIPS

### 2022 IPLEADERS, Research Intern, 1 month

- I interned at iPleaders as a content writing intern on various topics of law. I was taught and guided to do extensive research work and prepare articles on the topics allotted.
- Each week I was provided with some topics, on which I had to do exhaustive research work and write articles on them. Initially, they helped in framing the basic structure of an article, but after one week I was guided in preparing everything about an article by myself.
- During the course of one month of my internship, I was provided with 11 topics. Out of 11 articles, 10 of my articles were published on the iPleaders blog page.
